

```
void setup() {  
  Serial.begin(9600); //initializing serial monitor  
}  
  
void loop() {  
  float c=35;  
  float f=c*9/5+32;  
  //relationship between Celsius, Fahrenheit scale  
  Serial.println(f,3); delay(1000);  
}
```
